

# The Friends for Friends Difference

We understand there is a place where you feel most comfortable, a place you enjoy visits with family and friends. This is where cherished memories bring a smile to your face and warmth to your heart. This place is your home.

Friends for Friends specializes in the care of persons with bone fractures, heart disease, strokes, Dementia/Alzheimer's disease, Parkinson's disease, and other chronic conditions and illnesses.

Everyone needs a little help sometime. When that sometime comes, it's not always necessary to leave your home.

Through in-home care you can retain your individuality, spirituality, dignity, friends, and family connections.

Friends for Friends offers care ranging from two to twenty-four hours a day, seven days a week. We are happy to plan with you a schedule that meets your individual needs.

***It is our mission, our pledge and our privilege to provide the highest standard of care and compassion, at the lowest possible cost to all of our friends.***

Friends for Friends

**ESF** Perform light housekeeping, laundry and shopping tasks.

**ESF** Prepare delicious home cooked meals while keeping special dietary needs in mind.

**ESF** Provide medication reminders as needed.

**ESF** Alleviate worries of clients and their families by assisting with household management and safety.

\* With letter from the client's physician stating that client is chronic and stable

# Why Friends for Friends?

Would you like a lower cost option?

We feel that every person has a right to **affordable, reliable health care.** Our rates are among the lowest in the tri-state area.

Would you prefer your own personal caregiver?

**Friends for Friends believes in creating relationships — not just in providing care.**

What if you need care right away?

In an emergency situation **care can be provided the same day the request is made.**

How do you know who is the right caregiver for you?

**Decades of care manager experience** has taught us what questions to ask to **assist us in helping you choose the best caregiver for you.** This allows true friendships to develop.

Who are the Caregivers?

The caregivers are made up primarily of **our friends, family members and workers we have known for years.** The relationships that have been built with these caregivers **allows us to truly call them friends. We hope you will too.**
